

AnyLAN™ Ruggedized Zone Enclosure

A LANscape®
Solutions Product

features and benefits |

Compatible with Plug & Play™ AnyLAN™ solutions	Faster, easier installation and moves, adds and changes
Factory terminated	Eliminates need for field termination, improving reliability and speed of deployment
Configurable from 12-96 fibers, single-mode and 50 μm multimode	Network flexibility
Environmentally robust: UV-resistant, vibration resistant, with a temperature range from -40°C to +65°C	Reliable performance

Corning Cable Systems AnyLAN™ Ruggedized Zone Enclosure combines the AnyLAN OptiTip™ adapter with a sealed closure for quick and easy deployment, eliminating the need for field-terminated fiber optic cables. The enclosure is fully compatible with existing Plug & Play™ AnyLAN solutions and is ideal for easy installation of zone architectures. The factory-terminated enclosure eliminates time required for field-termination methods while providing industry-leading quality and reliability. The ruggedized zone enclosure is easily mounted in trays, on poles or can be direct buried for increased design versatility. Environmentally hardened MTP® preterminated ends offer quick overall system deployment in even the harshest environments.
